STATEMENT OF PURPOSE

Mansfeld Middle Magnet School-STEM plus is a community dedicated to student academic and personal success for today and in the future through STEM education.

Mansfeld Middle Magnet School STEM plus teachers, staff and families are all considered equal partners in our student's education. Working together, our staff, families and the community can help our students to achieve their greatest potential. This partnership will promote the importance of daily attendance, good grades, and a positive outlook regarding school.

ANNUAL TITLE 1 MEETING

Mansfeld Middle Magnet School STEM plus staff and parents will be informed of the Title 1 budget information that will be shared in the fall and then again in the spring.

ANNUAL EVALUATION

A school/parent compact will be on our website for parents, students, and teachers for the purpose of each individual setting goals for themselves to help foster positive development of the student. The compact should be reviewed with the student and parent quarterly to revisit goals. Annually parents may review and give input regarding the parental compact and this policy at a Site Council meeting, Family Engagement meeting, or a PTSO meeting.

PARENTAL CAPACITY

A survey will be sent home annually to determine the needs of our families. School personnel will provide a variety of meeting times and locations for the mentioned activities, as requested, to serve families.

Parent Involvement

We will collaborate with the community to provide workshops to fit the needs of our families. Workshops may include Math Awareness, ESL for adults and parental access to view you student's progress.

Communication

Parents will be notified of school functions through newsletters, websites, robo calls, and the Parent Compact.

Language interpreters will be made available for families, as necessary. Every effort will be made to communicate in the language parents/guardians have indicated is their primary language. Translations of written communications will be made available when the need is determined.

The School Community Liaison serves as a communication link between home, school, and the community.

Volunteering

We welcome parent volunteers. Call 520-225-1834 for more information.

Learning at Home

Bridge student learning between school and home with curricular support, resources and teacher assistance. Workshops will be offered though Title1Family support locations.

Decision Making

Parents will help the school and /or district make important decisions through attending meetings with our PTSO, Site Council (Decision Making Council), Family Engagement and School Community Partnership

Council (SCPC).

Family advocacy is supported with shared decision-making processes throughout the school. Our school will present incentives to parents for coming to the meetings. These will benefit the students directly (extra points for students, free dress day, etc.).

Collaborating with the Community!

The community at large will be utilized to meet the social and academic needs of the student. We will send timely communication about meetings. Stress the importance of having parents of different ethnic backgrounds attending the meetings.

See our website for more information <https://mansfeldms.tusd1.org/>
