This was our third Family Engagement meeting for 2024-2025 school year.

Carolyn Mosconi went over the agenda.

Welcome Everyone

Parents continue to enjoy sharing positive stories about their child/student today. Most shared they have seen growth academically in their child's educational process.

We discussed the results of the Family Engagement Focus group, held on February 12th. Each suggestion by parents were beneficial and useful. One observation by all parents was how beneficial the tutoring program at Mansfeld is. One parent encouraged us to implement a socialization opportunity just for parents. That same parent suggested having available brochures from the feeder high schools for the outgoing eighth graders.

We adjourned at 6:00 pm.
