This was our first Family Engagement meeting for 2024-2025 school year.

Carolyn Mosconi went over the agenda.

Welcome Everyone

We all Shared something positive about our child/student today.

We discussed not having the Family Engagement Meetings anymore right after Site Council and just before PSO. But the consensus this year is to have it at this same time still.

We had a spirited engagement about social media becoming a real problem for our students. We collectively decided to form a parent support group, invite TPD, Sheriffs dept. and Technology to assist us in disabling some of the social media posting ability.

They all agreed to Wed. Sept. 11<sup>th</sup> for further planning.

We also talked about having more interesting field trips and / or speakers here for a career day involving both the parent and the student.

We adjourned at 6:00 pm.
